Business Overview

Little Kickers was established in the UK in 2002 and focused on building a brand around “fun first”, making sure they worked with experts in child development as well as FA-qualified football coaches. The business creates programmes that deliver high quality football skills, combined with important pre-school learning concepts such as colour and number recognition, sharing, following instructions and using imagination.

With a network of 1,500 coaches and 260 franchises in 20 countries, the business is now the world’s biggest and most successful pre-school football academy and are constantly enhancing the classes.

Little Kickers Southfields has been established for over 7 years, the business has grown to 32 classes a week and nearly 400 children attending each week through summer 2019.

Operating from school halls, leisure centres and public spaces including parks and pitches, the business runs 24 classes on a weekly basis rising to 32 in the summer.

Our client has invested in an online payment system allowing parents to book and pay for classes in advance allowing the business to be cash positive with excellent profit margins.

Operating 47 weeks of the year, the business would be an excellent lifestyle purchase for an individual or sports-related company to expand their portfolio.
